

LOI- 2026 Cousins Foundations

CF Foundation

Project Title*

(e.g. "Organization Name" general operating support)

Character Limit: 100

To support a culture of learning and better understand the impact of our funding, the Cousins Foundations requests that grant partners provide a report at the end of the grant period (and for multi-year grants, at annual intervals). As a reminder, there is a waiting period of one year after the grant term's conclusion before submitting a new request for funding, unless you have been contacted by the Foundations with an invitation to submit an earlier request.

We are especially interested in how your work has progressed relevant to the objectives and anticipated outcomes outlined in your original funding request. We'd also like to know how you, the organization, and your work is doing generally - changes, challenges, and opportunities - and any feedback on how the Foundations can more effectively collaborate with you to advance your work.

Please note that some of the questions and associated answers from your original grant application will be automatically populated in this form for reference. The answers will appear as "read only" and cannot be edited.

If you have any questions or would like to discuss alternate formats for your reporting, please don't hesitate to reach out to Tiffany Padolsky at tpadolsky@cffdn.org.

Organizational Updates

If there have been any significant changes to your organization's leadership, strategic priorities, or financial position over the past year that you would like us to know about, please share here.
